

Lake Mathews and in north San Jacinto, and an 8 ha (20 ac) natural area west of I-15 in Corona.

3.1.3.14 Alternative H3

The bandwidth of this alternative is very similar to H1, although its northern route includes less agricultural land and more residential property, including 6 ha (15 ac) of mobile homes northwest of La Sierra Avenue at SR-91. This alternative avoids both the gravel pits/quarries and an 8 ha (20 ac) natural area, but would include more school property along La Sierra Avenue.
