

3.5.1.5 Solid Waste

The Riverside County Waste Management Department (WMD) owns and operates seven sanitary landfills and owns six transfer stations, which are leased to private waste management companies. Refuse hauling and curbside recycling services in western Riverside County are provided by Waste Management, Inc. The solid waste disposal facilities serving the general study area are El Sobrante Sanitary Land Fill in Corona, the Moreno Valley Transfer Station, the Perris Transfer Station, the Lamb Canyon Sanitary Landfill in Beaumont, and the Badlands Sanitary Landfill in Moreno Valley. None of these facilities are located within the WT Corridor study area. Riverside County has proposed the expansion of the sanitary landfills. Current size and proposed expansion for sanitary landfills serving western Riverside County are shown in Table 3.5.C.

Table 3.5.C - Solid Waste Facilities

Landfill	Current Disposal Area	Proposed Expansion	Annual Capacity	Additional Capacity	Current Year Life Expectancy	Proposed Year Life Expectancy
Badlands Sanitary Landfill 31125 Ironwood, Moreno Valley	141 acres 57 ha ¹	851 acres 344 ha	721,000 cu yds ² 551,277 M ³ ³	33,000,000 cu yds 25,200,000 M ³	2010	2033
El Sobrante Landfill 10910 Dawson Canyon Road, Corona	90 acres 36 ha	405 acres 164 ha	1,902,000 cu yds 1,454,296 M ³	179,700,000 cu yds 137,400,000 M ³	2005	2035
Lamb Canyon Sanitary Landfill 16411 Lamb Canyon Road, Beaumont	788 acres 319 ha	354 acres 143 ha	979,000 cu yds 748,543 M ³	21,000,000 cu yds 16,000,000 M ³	2006	2036

¹ ha = hectares

² cu yds = cubic yards

³ M³ = cubic meters

3.5.2 Utilities

The major conveyance lines for water, natural gas, and electricity transmission systems form a substantial network of corridors crossing Riverside County. Major transmission lines for electricity and natural gas are shown in Figure 3.5.2. The locations of these transmission lines were obtained from information and maps provided by the Metropolitan Water District of Southern California and the State of California Energy Commission.
