

- N 17.7 Evaluate current land uses to identify potential noise conflict areas. (AI 106, 107, 109)
- N 17.8 Gather activity operations' data of noise sources; prepare analytical noise exposure models to develop existing and projected noise contours around major noise sources down to 50 CNEL. (AI 109)
- N 17.9 Encourage greater involvement of other County departments in the identification, measurement, and reduction of noise hazards throughout the County, including: Building and Safety Department, Aviation Department, and the Department of Public Health-Office of Industrial Hygiene.

Public Noise Information

Policies:

- N 18.1 Provide information to the public regarding the health effects of high noise levels and means of mitigating such levels. (AI 109)
- N 18.2 Cooperate with industry to develop public information programs on noise abatement. (AI 108)
- N 18.3 Require that prospective purchasers or end users of property be notified of overflight, sight, and sound of routine aircraft operations by all effective means, including;
 - a. requiring new residential subdivisions that are located within the 60 CNEL contour or are subject to overflight, sight, and sound of aircraft from any airport, to have such information included in the State of California Final Subdivision Public Report.
 - b. requiring that Declaration and Notification of Aircraft Noise and Environmental Impacts be recorded and made available to prospective purchasers or end users of property located within the 60 CNEL noise contour for any airport or air station or is subject to routine aircraft overflight. (AI 109)
- N 18.4 Promote increased awareness concerning the effects of noise and suggest methods by which the public can be of assistance in reducing noise.
- N 18.5 Require new developments that have the potential to generate significant noise impacts to inform impacted users on the effects of these impacts during the environmental review process. (AI 106, 107)
