

## **GENERAL PLAN CERTAINTY SYSTEM**

---

The Riverside County General Plan Certainty System provides clarity regarding the interpretation and use of the General Plan in ongoing decision making and sustains the General Plan's policy direction over time. Circumstances will change, imperfections in the General Plan will be discovered, and events will occur that require changes in the General Plan. Despite these probabilities, the intent is to maintain a high level of confidence in the General Plan and enable people affected by it to have reasonable expectation regarding how it will impact them. Its interpretation, application and amendment are very important matters, not to be taken lightly. Therefore, the Certainty System consists of four parts:

1. **Presentation.** To the maximum extent possible, provisions of the General Plan are clearly mapped. Further, the language of the General Plan seeks to be clear, simple and deliberate, with intent indicated for each provision of the General Plan (see Interpreting the General Plan's Intent section, above).
2. **Interpretation.** Guidelines for interpreting the intent of the General Plan where conflict arises are provided for resolution of the issue, including a defined process for making the interpretations and determining their potential for future changes in the General Plan (see Interpreting the General Plan's Intent section, above).
3. **Monitoring.** A responsive, highly automated system for monitoring implementation of the General Plan, including documentation of development and land preservation activities, is established and maintained. Reference to this monitoring information is an essential ingredient in the consideration of any change in the General Plan, especially regarding land use designations. The information in this system is maintained in such a way that basic development activity can be summarized at any time, including status as part of an annual report on General Plan progress (see Monitoring of Development and Conservation section, above).
4. **Amendment.** It is clear that the timing, rationale, and process for amending the General Plan are critical ingredients in maintaining the long term viability of the General Plan. That is why carefully crafted descriptions of this aspect of the Certainty System are included in the General Plan.

### **Objectives**

The General Plan Certainty System seeks to satisfy the following objectives.

1. Maintain the integrity and confidence level in the new Riverside County General Plan.
2. "Stay the Course" regarding its direction long enough to be able to determine its workability.
3. Define categories of amendment activity so they are universally understood.
4. Establish a set of rules and procedures for amending the General Plan that are fair, firm and equitable.
5. Empower any property owner to seek an amendment according to established procedure.
