

Policies:

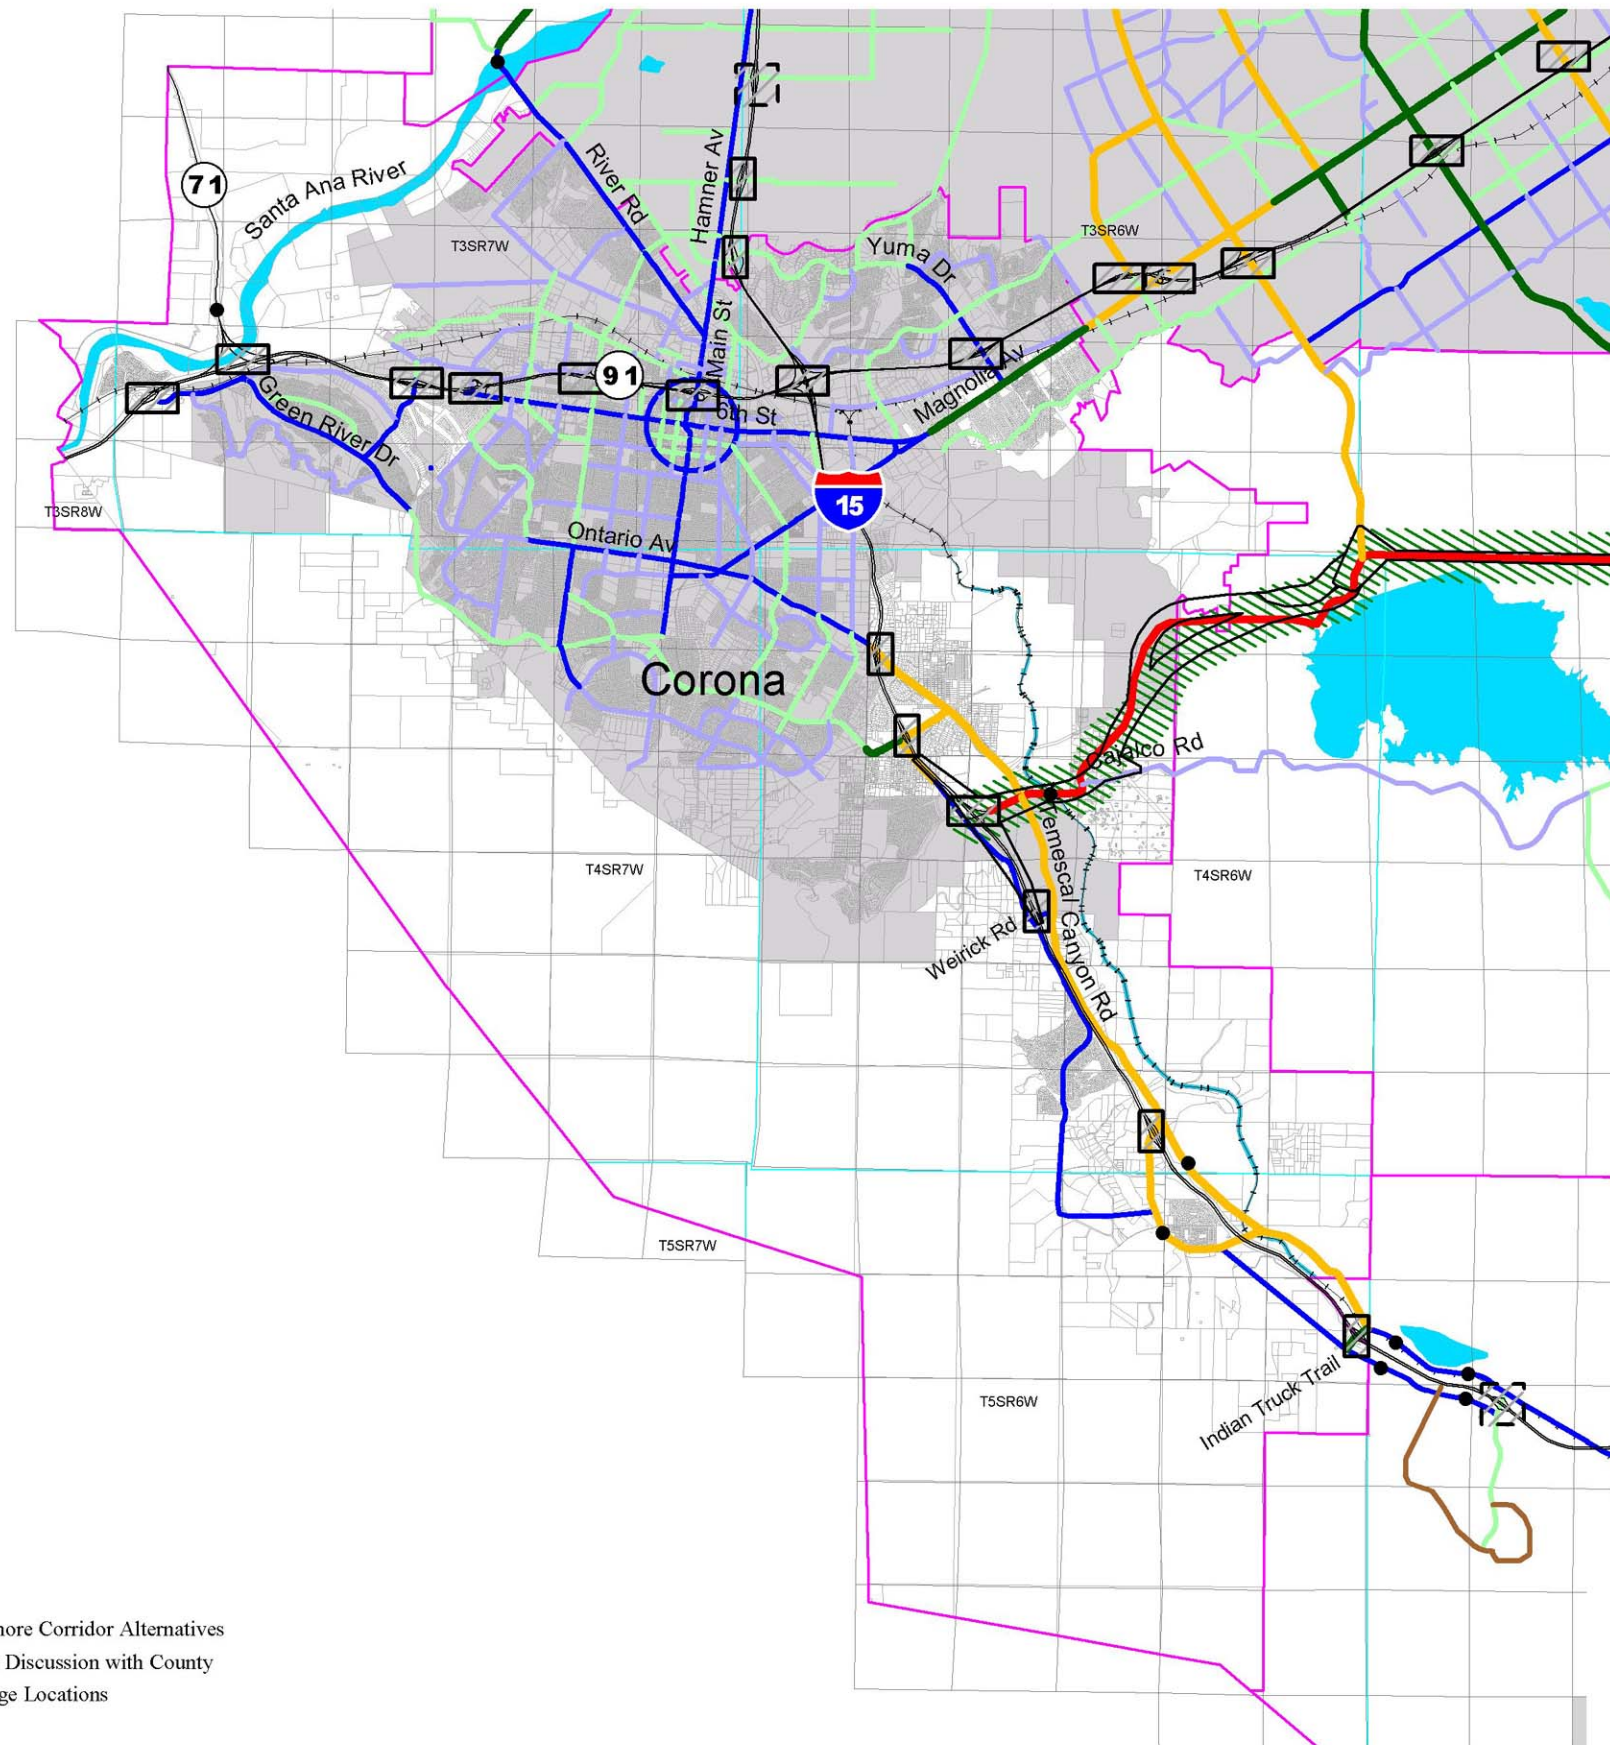

- TCAP 14.1 Accommodate the Hemet to Corona/Lake Elsinore CETAP Corridor in accordance with the CETAP section of the General Plan Circulation Element.
- TCAP 14.2 Accommodate the direction of the Riverside County to Orange County corridor study, once it is complete.

I-15 Corridor

Interstate 15 has been identified by the CETAP process as a major connector between the Corona/Riverside area and San Diego. This corridor could be enhanced, especially by connecting transit links, to provide a critical north-south link for transit, automobile and truck trips within and outside the County. The capacity of this critical corridor could be expanded through such strategies as widening, high-occupancy vehicle lanes, dedicated truck lanes, and transit improvements, such as exclusive express buses. Infrastructure put in place along with development in this area plan should support all modes of transit along this corridor.

Policies:

- TCAP 15.1 Require projects to be reviewed for the provision of transit support facilities (including bus turnouts, signage, benches, shelters, etc.) along arterial streets and local transit service routes.
- TCAP 15.2 Require each proposed Specific Plan, and major commercial and industrial projects consisting of 20 acres or larger to be evaluated for the provision of a park-and-ride facility.
